

Sea Stars products for thalassotherapy and aromatherapy

## Sea Stars Massage gel with Black Sea lye and with essential oils

### MASSAGE GEL with BLACK SEA LYE\* and ESSENTIAL OILS

38 Juniper  
40 Rosemary

A massage gel for thalasso- and aromatherapy containing *stabilized Black Sea lye*\*. The massage gel has a high content of minerals, macro-components (magnesium being the dominating one, with up to 300 g/l), micro-components, micro-seaweeds and biologically active substances from the salty lakes of *Pomorie and Burgas*

\* Black Sea lye: a lye consisting essentially of a solution of sodium hydroxide (here from the Black Sea), used in soap making.

**Action:** A mineralizing and stimulating massage gel for the skin. The gel improves the general skin condition and appearance, giving it relaxation, hydration and protection against aging. The natural mineral substances, microelements and extracts in the gel penetrate the skin and refreshes and stimulates the body.

**Application:** Massage the gel into the skin, and leave on skin from 10 min up to several hours. Rinse off with water.

**Attention:** This product is not edible.

**Precautions:** Children, pregnant women and people with super-sensitivity to essential oils should not use the product.

**Storage:** Store in cool and dry places, up to 25 °C.
