

Sea Stars solution with herbal extracts

STIMULATING SOLUTIONS FOR BATHS with BLACK SEA LYE and HERBAL EXTRACTS:

22 Roses

30 Geranium

09 Seaweeds

05 A bouquet of Rosemary, Salvia and Geranium

04 A bouquet of Chamomile, Lavender and Juniper

03 A bouquet of Peppermint, Oak and Juniper

Highly mineralized (up to 350 g/l salts) bath solutions of stabilized Black Sea lye, containing all macro-components (e.g. magnesium salts up to 295 g/l), micro-components, seaweeds and biologically active substances. All natural ingredients originate from the salty lakes of Pomorie and Burgas in Bulgaria, and are enriched in essential oils.

Action:

A natural cosmetic product that improves the nature and appearance of your skin. It nourishes, hydrates and beautifies the skin while protecting it against aging. The mineral substances, micro elements and herbal extracts penetrate the skin and refresh and stimulate the body

Application:

For soaking, dilute approximately 100 -120 ml product in 80 -100 l water at a temperature of 37 - 40 °C. For Local treatment e.g. foot bath, dilute approx. 10 - 20 ml product in 5 - 10 l water at a temperature of 37 - 40 °C.

Note: This is not a food additive.

Precautions: Children, pregnant women and people with super-sensitivity to essential oils should not use the product. If hypertonic use of this product should be monitored by a doctor.

Storage: Store in cool and dry places, up to 25 °C. Protect against sun light.
