

Solilug for thalassotherapy and compresses

SOLILUG WET NAPKINS with stabilized BLACK SEA lye

A refreshing wet napkin in non-woven viscose-polyester material with stabilized Black Sea Lye*, mineral substances and micro-elements that nourish and relax the body. It is a natural cosmetic product that improves the nature and appearance of your skin, while protecting it against aging. The napkin is saturated with minerals in the form of micro-components, micro-seaweeds and biologically active substances from the Bulgarian salty lakes of *Pomorie and Burgas*. These mineral substances penetrate the skin and refresh and stimulate the body.

Application: Apply to cleansed skin and leave on for 5-10 minutes. Rinse off with water. Wet napkins with stabilized Black Sea Lye can also be used as a compress and can help to decrease discomfort associated with arthrosis, radiculitis, slipped discs, rheumatism, muscular pains and neuritis.

Code 28 – 50/25 cm - compresses for neck-piece; knee; glove.

Code 29– 50/35 cm - compresses for back; waist; foot.

To use as a hot compress, put the package into a cup with hot water (60-70°C) for 3-5 min. Then remove the napkin from the package and place it on the area needing treatment. Wrap area in plastic foil or nylon and cover in wool fabric. Leave compress on from 15 min to a few hours.

To use as a cold compress, put the package into the refrigerator for 15-20 min. Then remove the napkin from the package and place it on the area needing treatment. Leave compress on from 15 min to a few hours

Precautions: *Do not heat in microwave oven.* Children, pregnant women and people with super-sensitivity to essential oils should not use the product.

Storage: Store in cool and dry places, up to 25 °C.

Ingredients (INCI): Water; Sodium chloride; Magnesium sulfate; Magnesium chloride; Potassium chloride.

* Black Sea lye: a lye consisting essentially of a solution of sodium hydroxide (here from the Black Sea), used in soap making.
